TELEFON: CENTRAL 2835

TELEGRAM ADRESSE: STATSSERUM

POSTGIRO: 2817

Nr.

3rd Febr., 1951.

Dr. J. Lederberg
University of Wisconsin
Department of Genetics
Madison 6, Wisconsin
U.S.A.

Dear Dr. Lederberg:

I received your letter of January 27th and I am sending you without charge the test strains of the first 25 O groups of Escherichia as only these strains are analyzed with regard to O, K and H antigens (according to the enclosed list).

The other O groups are only investigated with regard to their O antigens and only provisionally established as the investigations are not finished as yet.

It is not possible for me to send diagnostic sera or to analyze strains which you might isolate during your investigations.

With regard to literature, a little monograph: "The Differentiation of Escherichia and Klebsiella Types" by F. Kauffmann just appeared by Charles C. Thomas, Publisher, Springfield Illinois, U.S.A.
301 E. Lawrence Ave

Yours sincerely

F. Kauffmann

F. Kauffmann
